

Can you imagine?

Changing the world?

Shaping the future?

Doing what's never been done?

We can. And you can imagine with us.

See hundreds of interesting exhibits by students, faculty and staff.

- Learn how video games are designed and developed
- Race a solar-powered vehicle
- Detect nano particles in the air we breath
- Discover why humans like chocolate
- Taste hot dogs made in a robotic assembler
- Let a robot take you on a tour

And at RIT's National Technical Institute for the Deaf, you'll be able to:

- Test drive an electric bicycle and discover how it works
- Experience poetry in American Sign Language
- Operate a mini backhoe
- Discover math and science in the everyday world
- Enjoy dance and theater performances
- Explore an electronic American Sign Language dictionary
- And much more!

Plus performances, food and family fun.

Saturday, May 2 10 a.m. – 5 p.m.

Free Admission Rain or shine

Join us on the Rochester Institute of Technology campus for a one-of-a-kind event that will inspire you, your friends and family to embrace learning through innovation and creativity.

www.rit.edu/imagine

Interpreting services will be provided throughout the day. Interpreters will be identified by their brown shirts with an "Interpreter" imprint. Visitors can request interpreting assistance at the five welcome tents and on the NTID quad.
