| **First year students will know the timeline and procedure for selected academic policies** | 80% of students will demonstrate satisfactory knowledge:  
- period of time for add/drop and withdrawal  
- method for add/drop and withdrawal  
- know current degree level within his/her major. | End of first year survey/questionnaire (Administered during Table Talk and with Clipboard Survey) | Students will achieve a score of 80% on end of first year questionnaire | Spring 20073 | Fall 20081 | The Outcome Assessment Committee decided that we would get more useful results by querying students closer to graduation, instead of surveying freshmen. This outcome will be eliminated by the survey of upper class students. | N/A |
| **First year students will be able to perform essential academic processes** | 80% of first year students will:  
- successfully register for fall quarter  
- predict length of degree program |  
- Student Information System  
- STARS  
- 21-day report  
- Course-plan chart | At least 80% of first year students will be registered for fall quarter by the end of spring quarter (20083) | Spring 20073 | Fall 20081 | The Outcome Assessment Committee decided that we would get more useful results by querying students closer to graduation, instead of surveying freshmen. This outcome will be eliminated by the survey of upper class students. | N/A |
| **First year students will be satisfied with counseling services** | 80% of first year students will express satisfaction with counseling services | End of first year satisfaction survey | Students will rate counseling services with an average score of at least 4.0 (Scale: 1-5) | Spring 20073 | Spring 20073 | The Outcome Assessment Committee decided that we would get more useful results by querying students closer | N/A |
Graduating students will express satisfaction with counseling services

</table>

80% of graduating students will express satisfaction with counseling services

- Graduating student satisfaction survey
- Given to students during final quarter of academic program

<table>
<thead>
<tr>
<th>Students will rate counseling services with an average score of at least 4.0 (Scale: 1-5)</th>
<th>Fall/Winter 2007-2008</th>
<th>Spring 20073</th>
</tr>
</thead>
</table>

The previous student satisfaction survey was not administered this year and was replaced by the new Focus Group and Assessment Survey conducted in 20093.

- Graduating student satisfaction survey
- Given to students during final quarter of academic program

80% of graduating students will express satisfaction with counseling services

- Graduating student satisfaction survey
- Given to students during final quarter of academic program

Students will rate counseling services with an average score of at least 4.0 (Scale: 1-5)

<table>
<thead>

<th>Fall/Winter 2007-2008</th>
<th>Spring 20073</th>
</tr>
</thead>
</table>

The lower percentage rates on the students to graduation, instead of surveying freshmen. This outcome will be eliminated by the survey of upper class students.
Results re: student responsibilities:
The top 5 responses, picking courses for the major (90%), finding a co-op (90%), contacting teachers when sick (85%), improving my GPA (80%) and staying on track for graduation (75%) were accurately identified as primary student roles.

The duplicate responses with the counselor, chairperson and individual student roles reflects an accurate understanding that many of these responsibilities are indeed a joint effort.

Comments:
* A focus group of 10 students was gathered to ask students about their experiences with Counseling and Academic Advising Services at NTID. The discussion was led by two counselors and the responses were videotaped and a text transcript was generated. This transcript was then analyzed by an educational researcher and he developed a series of questions that were the top areas of concern expressed by the students in the focus group. A link to the online survey was emailed to the students who were within two quarters of their AAS/AOS graduation.

** The overall response rate to our survey was 20 out of 116 students. Two separate emails were sent reminding students to fill out the survey. In the future, we would try to increase the response rate from 17% to 35% so as to get a broader response set from the student body.
