**Implementation Plan (timeline):** Student teaching evaluations are conducted annually  
**Key/Responsible Personnel:** Program Director

**Findings for 1. Student Teaching Evaluation**

**Summary of Findings:** Fourteen MSSE students successfully completed their two student teaching assignments during the spring semester. Thirteen of them achieved the rating of at least 3 that they are qualified and competent teachers (92.8%). The ratings for the last student was mixed. Being an international student put her at a disadvantage for understanding the US educational system.

**Results:** Acceptable Benchmark Achievement: Exceeded  
**Recommendations:** Provide our international students more exposure to school programs that serve deaf and hard-of-hearing students. Also, discuss the evaluation statements with them so they understand what is expected during both student teaching assignments.  
**Reflections/Notes:** To date, all of our international students are either experienced teachers in their home countries or have gone through the US educational system. We need to do a better job of acclimating our international students to how our deaf and hard-of-hearing students are taught.

Summary of Findings: Of the 12 graduates who pursued a content area certification, all but one met the requirement (91%)
Results: Acceptable Benchmark Achievement: Exceeded
Recommendations:
Reflections/Notes: During the course of the program, some students do realize that they prefer to teach younger age deaf and hard-of-hearing students. A content area certification is often not needed.

Program level: Direct - Other

Details/Description:
Acceptable Benchmark: At least 75% of graduates will pass NYSTCE
Implementation Plan (timeline): NYSTCE pass rate are reported annually
Key/Responsible Personnel: Program Director

Findings for 4. NYSTCE pass rate

Summary of Findings: With a total of eight eligible students who took the tests, seven passed (87.5%). Five received their initial certification to teach deaf and hard-of-hearing students: two are in the process of receiving their certifications from the state where they are currently teaching (MA and SC). One student took two exams and passed but failed the last one. He does not plan to pursue the NYS certification. He is in the process in pursuing certification from the state he is currently teaching.
Results: Acceptable Benchmark Achievement: Exceeded
Recommendations:
Reflections/Notes: Our program is a national program, many of our students elect to pursue their certifications from the states where they are teaching.

1.2 Demonstrate competence in the use of ASL

Measure: 1. Sign Language Proficiency Interview (SLPI)
Program level: Direct - Other

Summary of Findings: Seventeen of the 18 graduates took the SLPI, all but one achieved at least intermediate level rating (94%)

Results: Acceptable Benchmark Achievement: Exceeded

Recommendations:

Reflections/Notes: Generally, students who do not achieve at least intermediate level signing skills do not pursue teaching positions in schools for the deaf. They find positions where having strong ASL skills are not required.

Measure: 2. Student Teaching Evaluation - Communication Section

Program level; Direct - Other

Details/Description:

Acceptable Benchmark: At least 85% of the students receive a rating of 4 or 5 on their communication skills

Implementation Plan (timeline): Student teaching evaluations are conducted annually

Key/Responsible Personnel: Program Director

Findings for 2. Student Teaching Evaluation - Communication Section

Summary of Findings: Fourteen of the 18 graduates did their student teaching assignments during AY 2014-2015, the other four students completed their assignments during prior years and have been reported in prior outcomes assessment reports. All 14 student teachers demonstrated competence in their ASL skills during their student teaching assignments.

Results: Acceptable Benchmark Achievement: Exceeded

Recommendations:

Reflections/Notes: Again, the course, "ASL in Instructional Delivery" has been an asset in understanding how to adapt their signing skills to meet the communication and individual needs of the students.

**Recommendations:**

- **Reflections/Notes:** The students took much pride in their portfolios. They planned to share them during their job interviews.

---

**Overall Recommendations**

1. ASL skills development: need to monitor our students' progress in their receptive and expressive skills; maintain the requirement that they attend ASL classes (if needed) and take the Sign Language Proficiency Interview (SLPI).
2. Monitor carefully with the content area credit requirements; unless the students explicitly state that they only wish to have K-12 teacher of the deaf certification.
3. Counsel students to research the other state's certification requirements if they decide not to pursue NYS certification.
4. Continue to seek strategies in assisting students to prepare for the NYS teacher certification exams and the edTPA process.

---

**Overall Reflection**

We have continued to see improvement among our students in the ability to develop sound lesson plans, address diversity among the students, adapting their communication skills, achieving at least intermediate rating on the SLPI, and successfully passing the NYS certification exams (if they choose to pursue the NYS certification). Still, there is always room for more improvement. The program has become even more stringent in which students are accepted into the program. We could become more stringent. There always seem to be at least one student who struggles with graduate-level expectations. We need to be more firm on the sign language skills of those who enroll in the program with minimal skills. This could mean adding a semester to the students' plan of study.
